## A Cycle of Suffering

A widowed mother in rural Pakistan don't thinks about her children's education but about their next meal as there is no one to give a hand in their time of extreme need.

A widowed mother waits eagerly every day for the safe return of her children from the school located far away from their home.

The situation for the students studying in Islamic Schools is miserable as they are lacking learning material, regularly missing healthy diet as their institutions are not able to provide them access to basic needs as they are relying on charity & donations for their survival.

In the blessed days of Ramadhan and Qurbani, thousands of families in Pakistan are forced to suffer hunger not for a single year but on regular basis.

Going further deep, a mother sits under the open sky along with her kids searching for shelter to protect her family from the tough and rough weather.

Alhamdulillah, for thousands of families, this was not the story this year as Ummah Welfare Trust (Pak) with the spirit of generosity and kindness for humanity, displayed by thousands of donors, volunteers and staff, delivered vital assistance.

We pray to Allah (S.W.T) to ease the sufferings of those to whom we were not able to reach with our limited means of providing a supporting hand in this time of great need.

Muhammad Idrees  
Rajab 1439

# THE CRISIS IN OUR UMMAH

## Are We Being Punished?

*The wisdom we fail to comprehend.*

The Messenger of Allah Sallallahu 'alayhi wasallam said: *'This Ummah of mine is one to which mercy is shown. It will have no punishment in the next world, but its punishment in this world will be trials, earthquakes and being killed.'* [Abu Dawud]

He also said: *'The greatest reward comes with the greatest trial. When Allah loves a people He tests them. Whoever is content will win His pleasure but whoever is discontent will earn His anger.'* [Ibn Majah]

Sometimes we may question the wisdom behind the suffering and trials in Syria, Myanmar and elsewhere. It is true that we can bring this upon ourselves due to our sins. However it is also true, as the authentic ahadith mention, that those who are most firm on their deen are the ones most tested by Allah.

The question then arises: is the suffering we see in the Ummah a punishment or a test? This can be ascertained by our response. If we become closer to Allah through these trials, then it is a test, and if we move further away, then it is a punishment.

Allah says: *'Corruption has flourished on land and sea as a result of people's actions and He will make them taste the consequences of some of their own actions so that they may turn back.'* [Q 30:41]

In the short-term, the suffering is painful and difficult, but when viewed through the lens of the hereafter, our perspective changes.

The Messenger of Allah told us: *'On the Day of Judgement, when the people who were tested (in this world) will be given their rewards, the people who were spared will wish that their skins had been cut off with scissors while they were in the world.'* [Tirmidhi]

## Importantly, Our Role

The whole Ummah is responsible for its collective state. What we do here in the West affects our brethren in the East. Our sins directly impact and cause the suffering of others. Every sin has a consequence. Our sins are not only between us and Allah, but have a direct consequence on our families, communities and ultimately the entire Ummah.

Abandoning sin, abundant istighfar, renewing our tawhid, strengthening our acts of worship, not withholding the rights of others, building a strong bond with the Book of Allah and collectively turning back to Allah will help us overcome our challenges as an Ummah.

**May Allah give us the ability to do so.**

# TO CREATE HOPE FOR TODAY & TOMORROW

After their father's death, the exact numbers of orphan students who are no longer in school is difficult to measure where the learning losses that come with children not being in school have the potential to last a lifetime.

This is not the case with children who have reached Ummah Children Academy, Nowshera | Wana, Ummah College of Technology, Nowshera and Ummah Centre for the Disabled, Rawalpindi.

## Ummah Children Academy

For ensuring that learning systems are built back better and stress free which can be reflected from the lived experiences of neglected children (orphans), Ummah Welfare Trust (Pak) established a free-of-cost residential educational facility in 2007 located at G.T Road Soria Khel, Nowshera.

Orphan children from all over Pakistan are enrolled at the academy after clearing the entry test where they are allowed to access free-of-cost quality-education (Modern | Islamic), boarding, food, medical-care and recreational services.

For hundreds of previously neglected orphans, educational and emotional care at the academy turned into a way out from the marginalization as they are now entering their practical life nearing to complete their higher studies in various subjects including Medical, Engineering, LAW, Information Technologies, Business Administration and many others.

## An Academy in Wana

To learn and succeed in their life is not an easy task for the children living in remote and isolated parts of the developing countries like Pakistan but this is no more a concern for the enrolled orphan students at Ummah Children Academy, Wana, South Waziristan.

Born in one of the most conflict-affected region of Pakistan, orphan students remain more at risk of dropping out of school, with many never to return as there is no one to pay for their schooling but this is not the case for 570 orphans who are enrolled Ummah Children Academy, Wana, who are provided with free of-cost education opportunities at their doorsteps.

*'Have you seen him who denies the (Day of) Judgment?  
That is the one who repels the orphan and does not  
encourage feeding the poor.'*

[Q 107:1-3]

## Ummah College of Technology

The hallmark of technical education and vocational training is its focus on practical skills and work-readiness as practical skills are mostly acquired through learning-by-doing, which occurs in workshops and laboratories or through hands-on experience at the workplace.

After successful implementation of traditional education, the charity went a step further by entering into technical education and vocational training sector by establishing Ummah College of Technology in 2015 for the orphan students at Nowshera.

The college is currently offering various technologies courses (Diploma of Associate Engineering) including civil, electrical, mechanical and petroleum along with short courses surveying, draftsman and CAD, electrician and carpentry etc. as well as one-year diploma in Information Technology.

## Care For The Special Children's

After Ummah Children Academy at Nowshera and Wana, an inclusive education initiative for transforming the life of children with special needs was established in form of Ummah Centre for the Disabled at Rawalpindi.

Children with special needs are among the most marginalized and vulnerable in many countries, and they are the most likely to be excluded from education as they often face a multitude of barriers in attending, participating in, and ultimately benefiting from school.

64 most-deserving children with special needs are allowed at the Ummah Centre for the Disabled to have access to educational (Modern | Islamic) as well as rehabilitation services for the full fledged reintegration into the society.

# A WEALTH OF HEALTH

## Dialysis Center

Expanding access to quality and affordable health-care services is a central element to eliminating extreme poverty and promoting shared prosperity. Chronic kidney disease (CKD), which causes people to lose their kidney function over time.

Once kidney failure occurs, affected individuals require a kidney transplant or weekly dialysis treatment as they will live only a few months at most without treatment. Despite the importance of dialysis, thousands of newly diagnosed with CKD each year die within months due to lack of treatment as services are fragmented and largely concentrated in big cities where high prices and the need for frequent treatments make dialysis a financial burden for many patients and unaffordable for others. For allowing the poor and needy kidney patients to access quality but free-of-cost dialysis services, UWT (Pak) established a dialysis centre in June, 2009 and still remain the only lifeline for hundreds of kidney patients of district Swabi and surrounding areas.

Equipped with state-of-the-art dialysis machines and staffed with skilled employees, dialysis sessions were performed for the visiting kidney patients.

*'Whoever would love to be delivered from the Hellfire and entered into Paradise, then let him die with faith in Allah and the Last Day, and let him treat the people the way he would love to be treated.'*

[Muslim]

## Gift of Sight

Globally, cataract surgery is the most frequently performed type of surgery, consistently producing excellent outcomes for patients where success rates are over 95 per cent and total recovery time can be less than one week.

But in Pakistan, people with cataracts had few options for surgery as government hospitals offering free cataract surgeries are unable to accommodate the volume of patients, and waiting times could be as high as a year where private providers offers better quality and more timely services, but at prices that is too high for much of the population.

To fill the gap, UWT (Pak) Cataract Surgeries project is a new way of seeing the world for the poor eye patients after undergoing for a Cataract surgery and ultimately avoiding needless blindness.

# THE MESSAGE OF QUR'AN FOR ALL

The significant presence of large number of religious schools (Madaris) makes the education sector in Pakistan unique.

The religious education sector comprises both registered religious school (Madaris) as well as independent unregistered religious school (Madaris) providing Islamic education to both male and female students.

The presence of large number of religious schools (Madaris) makes education easy for the students from poor families particularly in rural parts of the country as parents with inadequate resources always target these institutions to enrolled their children.

Most of these religious schools (Madaris) don't charge any type of fees and also provide free food, lodging facilities to the enrolled students alongside provision of clothes and textbooks as well.

The vital role of religious schools (Madaris) in spreading the message of Islam among the Muslims across Pakistan is undeniable as the spiritual suffering from millions of students been permanently eliminated by these religious school (Madaris) over the years.

*'The best amongst you is the one who learns the Qur'an and teaches it'*  
[Sahih-al-Bukhari]

## Key Highlights

## Hifdh Sponsorship

Memorization of the Holy Quran is an extremely noble task for the followers of Islam with innumerable rewards in this world and hereafter for all those who contribute to this noble cause.

To take forward the legacy of Hifdh, UWT (Pak) is implementing a unique DAWAH intervention in form of Hifdh Sponsorship allowing teachers and students in some of the isolated parts of Pakistan to memorize the Holy Quran.

The project also allows sponsored teachers and students to have access to some sort of financial assistance as they are reimbursed quarterly.

## Teacher Sponsorship

Teachers remain central to the learning process anywhere in the world in any form of education (Modern | Religious) as without a teacher a student and an entire class cannot go forward in their lessons.

As like modern education, teachers in religious education are also considered the main input for helping students to learn as the positive impact of a high-performing teacher can be enough for long-lasting, positive effects on the future education and learning outcomes of a students.

To allow the committed Islamic Teachers to continue their teaching services and support their families as well, UWT (Pak) Teacher Sponsorship project is producing the desired results as the reimbursed teachers are allowing the students to the learn the Holy Quran by Nazira and other basics of Islam in Pakistan.

# A SPIRITUAL CARE

## Holy Qur'an & Text Books

For much-needed spiritual nourishment, Muslims recite verses from the Holy Quran and also memorize it for everlasting rewards.

Under DAWAH project, UWT (Pak) distributed 13,000 copies of the Holy Quran were effectively distributed in religious schools (Madaris) in Pakistan, Alhamdulillah.

Parents with limited financial resources in Pakistan are unable to pay for the education-related expenses as parents have pushed back their children from education for years.

UWT (Pak) had provided in-kind support to religious schools (Madaris) and helped to ease the burden on families and give equal access to education for all the benefitted students.

With this unexpected but welcomed gesture, 13,000 students were enabled to learn their lessons with a solid foundation and address their long standing spiritual suffering.

With this intervention, the quality of education improved where efficiency and access was also ensured for 191 students (100 male | 91 female) in Pakistan.

*"If Allah (S.W.T) guides a person through you, it is better for you than all that is on the earth."*

[Sahih-al Bukhari]

# THE DIGNITY OF CHOICE

Orphaned children are vulnerable to being neglected or becoming homeless, being victims of child trafficking, abuse and child labour.

As like other children, orphaned children also have the right to be educated, both formally and informally, they have the right to live free from fear and discrimination, safe from violence, and protected from abuse and exploitation.

Unfortunately, orphaned children in developing countries like Pakistan are the least likely to fully experience childhood, a time that should be dedicated to emotional, social and physical development, as well as play.

Pakistan is ranked 149<sup>th</sup> on the Global Childhood Index by Save the Children out of 176 countries list in stage-3 (many children missing out on childhood).

To allow the children to enjoy some form of childhood, UWT (Pak) Orphan Sponsorship project is a way-out for 1,586 orphans in Pakistan as they are quarterly reimbursed to pay for their schooling to secure a bright future.

*'Have you seen him who denies the (Day of ) Judgment? that is the one who repels the orphan and does not encourage feeding the poor.'*  
[Q 107:1-3]

# FOR ORPHAN & WIDOWS

Marriage is the sole basis for women's access to social and economic rights and these are lost upon widowhood making these widows invisible and excluded along with their children as they are often hidden from view in their own communities.

The impact of husband's death falls more heavily on the widow, who may be excluded socially and lose their home and property where in the face of widowhood, women often struggle with serious economic hardships.

The disadvantages that widows suffer also affect their families as the children of widowed mothers have worse health outcomes and are less likely to be enrolled in school as their families are trapped in poverty after losing their breadwinner.

To allow the marginalized widows trapped in deep poverty, UWT (Pak) Widow Sponsorship project is allowing 360 widows in Pakistan to pay for the basic needs of their families with protected dignity and as per their priorities.

*'Seek out the vulnerable among you. verily, you are only given provision and support due to your weak ones.'*  
[Tirmidhi]

# THE SACRED ISLAMIC OBLIGATIONS

The virtuous months of Ramadhan and Dhul Hijjah always bring opportunities for relief and reward.

## The Blessed Ramadhan

The whole Ummah is guided by the Islamic faith –which recognizes that people with wealth have a duty to those who are less fortunate, as outlined in the Qur'an and Sunnah.

In the year 2018, Ummah Welfare Trust (Pak) faith-inspired food projects (Ramadhan Food | Sadaqatul Fitr) delivered food packs, benefitting over 90,924 vulnerable and food insecure families in (Pakistan) during the blessed month of Ramadhan.

Alhamdulillah, Through Ramadhan Food | Sadaqatul Fitr project, the fasting Muslim brothers and sisters were remembered as they were provided with carefully designed IFTAR Packs (each pack included rice, sugar, cooking oil, pulses & other essential items).

*'Verily the most beloved food to Allah is that which is received by many hands.'*

## Sharing The Blessing

As part of Ummah Welfare Trust (Pak) commitment to address food insecurity, each year during Eid al-Adha, the charity is at the forefront of distributing Qurbani meat to some of the world's most vulnerable and disadvantaged communities in Pakistan.

Across our project territories, for many this is the only time they are allowed to have meat in their meals and this year with support from the donors, UWT (Pak) not only brought happiness to the less fortunate and food insecure families, but allowed many to enjoy Eid without worrying about how and what they will feed their families, Alhamdulillah.

Under Aqeeqah/Animal Sacrifice project, sacrifices of cows, goats & sheep were performed at Ummah Children Academy on behalf of the respective donors where the produced meat was served at UCA and also delivered to other Madaris and Makatib of Khyber Pakhtunkhwa and Punjab, Pakistan.

# A SMALL STEP A BIGGER IMPACT

## Struggling to Balance

By placing focus on Islamic education and vocational training, Ummah Welfare Trust (Pak) supported and equipped female from disadvantaged communities with improved skillsets, which is a step closer to alleviate poverty, achieve financial independence and allows families to have a sustainable earning on their back on long-term basis.

To allow female from marginalized families to earn a dignified and sustainable income by using learned skills after completing their training and address their spiritual needs, UWT (Pak) established 02 Vocational & Islamic Education Centre, one in Rawalpindi, Punjab and another in Wana, South Waziristan.

Enrolled in 06-month Vocational Training and Islamic Education courses, 02 batch each from both centers graduated where 200 students at Rawalpindi and 60 students at Wana were allowed to complete their courses.

*'No one earns his food better than the one who worked with his hands, and the Prophet of Allah, Dawud (alayhissalaam), earned his food by working with his hands.'*

[Sunan Abi Dawud]

## Providing Livelihoods

Inside Pakistan, for millions of low-income families the stigma of poverty remain a lifelong situation as they had to struggle for their survival on little or no income as they have limited income generating opportunities.

Ummah Welfare Trust (Pak) continues to expand and diversify its sustainable livelihood projects because these interventions help lift people out of poverty and ensure their self-reliance and protect their dignity as well.

Alhamdulillah, this year Ummah Welfare Trust (Pak) had allowed 254 families to end their poverty on permanent basis at they were provided with income generation opportunities.

UWT (Pak) had provided 06 Loaders, 46 Rickshaws, 202 Sewing Machine to unemployed persons for allowing them to have an end to their struggle and to start their livelihoods and support their economically challenged families.

*'I will be the first person to attempt to open the gate of Jannah. All of a sudden, a woman will appear, attempting to open it before me. I will say: Who are you? She will reply: I am a woman who focused on raising my orphan children (i.e. children who lost their father).'*

# A BOX OF HOPE

Food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life.

Improving access to safe and nutritious food—and maintaining food security in times of crisis—is fundamental to ensuring the prospects of future generations but the cost of healthy diets is not affordable for billions of people in the world.

New shocks related to climate change, conflicts have hurt food production, disrupted supply chains and stressed people's ability to access nutritious and affordable food, raised fresh concerns for food security in disaster-prone Pakistan.

Alhamdulillah, Ummah Welfare Trust (Pak) ensured food security for 40,753 food insecure families by distributing Food Aid with the key aim of providing much-needed nutritional assistance.

*'No charity ever decreased wealth. No person stretches his hand out to give in charity without it first falling into the hand of Allah (Most High) before falling into the hand of the beggar.'*  
[Tabarani]

# THE LOST SMILE

The lost smile was brought back on the grim faces of 20,400 Pakistani children from marginalized communities on the both the Islamic festivities of Eid-ul-Fitr and Eid-ul-Adha.

Children from disaster-prone Pakistan always remained among the most-affected but most neglected as their priorities are not properly addressed by their families with limited resources.

Each year, on the blessed occasions of Eid-ul-Fitr and Eid-ul-Adha, children from affluent families wear new clothes, shoes, exchange gifts and toys but for children from the poor families this is not the case as they have to wear old clothes and shoes, have nothing to exchange making the special day of Eid, yet another ordinary day in their life.

This year on the Occasion of Eid-ul-Fitr and Eid-ul-Adha, children from several communities inside Pakistan were allowed to wear new clothes and shoes and play with their toys after they received Eid Gifts at UWT (Pak) Eid Gifts distributions.

*The Messenger of Allah (S.W.T) said: "The best of deeds is to create happiness for a Muslim: whether you cover his nakedness, feed his hunger, or fulfill his need."*

# BUILDING MASAJID BUILDING COMMUNITIES

*'Verily, the believers are like a structure,  
each one strengthening the other.'*

[Bukhari]

## Building Allah's Houses

Masajid in Muslim communities are the place where both the personal and spiritual development happens and without personal and spiritual development there can be no social development.

Alongside a place of worship for Muslims, Masajid also allow children to learn the basic of Islam and Holy Quran for attending their much needed spiritual nourishment.

To help promote piety and righteousness amongst the believers, Ummah Welfare Trust (Pak) has regularly built Masjids for the poor communities of Pakistan.

This year alone, the charity has built 52 large and small Masjid in Pakistan allowing thousands of poor students and daily worshippers to address their spiritual suffering, Alhamdulillah.

# NO ONE LEFT IN THE COLD

## Bringing Warmth, Saving Lives

Millions of people all over the world are not prepared for the icy chill of winter as for impoverished families it is a struggle to put food on the table or to protect themselves from the harsh cold otherwise they will sleep rough.

The freezing winds and temperatures push up survival costs, leaving many of our brothers and sisters facing a life or death situation as the cold season brings another blow to poor families trying to survive with less protection and resources.

Ummah Welfare Trust (Pak) always strives to allow families to protect themselves from the cold during winter months by delivering Winter Aid inside Pakistan.

Alhamdulillah, this year similar supplies were delivered to 3,848 less protected families in Pakistan including quilts and clothing.

*'None of you [truly] believes until he loves for his brother what he loves for himself.'*

[Sahih -al- Bukhari]

# BUILD BACK BETTER

## Your donations have delivered new homes to hundreds of displaced and impoverished families.

Today, estimated 1.2 billion people live in substandard housing and by 2030 almost 3 billion people will be unable to access an adequate, safe and affordable housing facility with basic services.

Over the past few decades, disasters caused by natural hazards have claimed thousands of lives and resulted in untold damage across Pakistan as the disasters have negatively impacted substandard houses and the families living inside them.

These disasters are becoming more frequent, damaging, and deadly – particularly for the poor households as walls are crumbling, roofs blowing off, and structures collapsing resulting large scale marginalization and housing poverty.

Alhamdulillah, Ummah Welfare Trust (Pak) has built 50 houses in 2018 to provide long-term solutions to families battling homelessness or housing poverty and protect their dignity and wellbeing in Nowshera, Swabi, Charsadda, Kohat, Mansehra and Haripur district in Khyber Pakhtunkhwa and Layyah, Muzaffargarh and Multan district in Punjab province of Pakistan.

*'There is no right for the son of Adam except in these things: a house in which he lives, a garment to cover his nakedness, a piece of bread and water.'*

[Tirmidhi]

# WHEEL TO HEAL

Estimated 1 billion people globally are experiencing some form of disability where most live in developing countries and are among the most excluded groups in the society as they often find it tough to access services, education, or employment opportunities resulting their less participation in the economy, which in turn drives them to poverty and marginalization.

The situation is more miserable in Pakistan as the persons with disabilities are experiencing adverse socioeconomic outcomes than persons without disabilities, such as less education, poorer health outcomes, lower levels of employment, and higher poverty rates which disproportionately affects these vulnerable populations.

Since commencing its relief activities inside Pakistan, Ummah Welfare Trust (Pak) had always reaffirmed its commitment to helping reduce barriers to inclusion and promote equality of opportunity, including for persons with disabilities.

To allow the persons with disabilities (physically disabled), Ummah Welfare Trust (Pak) implemented a comprehensive mobility support intervention by distributing 378 wheelchairs across 08 districts of Khyber Pakhtunkhwa and 04 districts of Punjab province of Pakistan where the project effectively restored the lost mobility for the beneficiaries.

*'Be kind to your children, and perfect their manners.'*

[Ibn Majah]

# AN EVER FLOWING CHARITY

## Ending The Long Walk

Improving access to clean water is a complex challenge and Ummah Welfare Trust (Pak) is committed to expanding access to clean water in Pakistan as contaminated water cause thousands of premature deaths each year, mainly among children.

Water supply is fundamentally linked to quality of life and development prospects in developing countries like Pakistan, as millions lack access to clean water for the domestic consumption particularly in rural parts of the country.

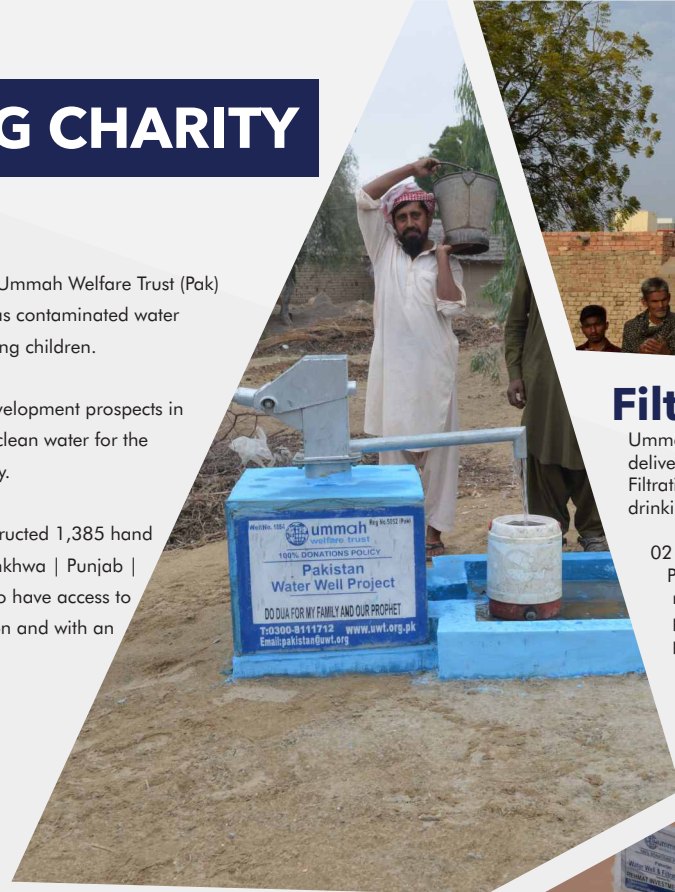

Alhamdulillah in 2018, Ummah Welfare Trust (Pak) has constructed 1,385 hand pumps for poor communities across Pakistan (Khyber Pakhtunkhwa | Punjab | Sindh) which had benefited and still benefiting communities to have access to clean and sustainable water source for their daily consumption and with an end to their long walk for collection of water.

*'The best charity (Sadaqah) is giving water (to drink).'*

[Musnad Ahmad]

### Key Highlights

## Filtration Plant & Well Repair

Ummah Welfare Trust (Pak) is ensuring sustaining water resources by delivering and building resilience water infrastructures in form of Water Filtration Plants to allow the benefited communities to have safely managed drinking water services.

02 Water Filtration Plants been constructed in Bahawalnagar district of Punjab, Pakistan for effectively contributing its role in reducing greatest risks to economic progress and increasing opportunities to eradicate poverty as safely managed water services are an essential part of preventing and protecting human health and well-being.

UWT (Pak) Wells Maintenance project is a unique intervention in water supply sector which had allowed the communities to regain access to clean water after the previously installed water wells been repaired effectively by the project teams.

In 2018 under the project, 185 water well been successfully repaired after the minor repairs been carried out by the teams which in return increased the water supply and reduced level of pressure on the other water infrastructures.

# COMMUNITY SUPPORT

## Supporting Our Sisters

### Marriage Grants

For many parents, an old custom raises the cost of daughters: at many marriages, the brides' parents pay a dowry to the groom's family where in many cases the dowries are more than the bride's family's total assets.

To support parents suffering from economic hardships to wed-off their loving daughters, Ummah Welfare Trust (Pak) had helped hundreds of our sisters to start their new life happily forever.

This year, 100 Marriage Grants were handed over to parents from marginalized families in several districts of Khyber Pakhtunkhwa and Punjab province of Pakistan which allowed our 100 sisters to start their after marriage life with happiness and dignity.

### Hardship Cases

Across Pakistan, hundreds of thousands families live in economic and social hardship, meaning they are unable to meet their basic food and non-food needs as they are uniquely vulnerable to sudden economic shocks.

To offer a hand of support, Ummah Welfare Trust (Pak) delivered a vital cash-based assistance in form of Financial Assistance allowing 79 chronically ill people to pay for their much-needed treatment for immediate health recovery.

*'From the most beloved deeds of Allah is to make a believer happy and remove a grief from him, or to repay his debt, or to satisfy his hunger'. [Bayhaqi]*

## Seeking Durable Solutions

In the today technologically advanced world, millions of people still live without electricity and hundreds of millions more live with insufficient or unreliable access to it particularly in developing countries like Pakistan.

Enhancing access to clean energy is a key priority of Ummah Welfare Trust (Pak) and for achieving this goal, Solar Panels are the most cost effective but greater energy generation resources.

23 Solar Panels were installed in Masajid in Khyber Pakhtunkhwa for allowing the worshiper to have access to environment friendly, cost effective and sustainable energy resources.

## New Muslim Sponsorship

Social exclusion is widespread for the Hindus inside interior Sindh, Pakistan who are living from generations in bondage as they inherit debts from their ancestor generation after generation from centuries.

Newly converted 220 children in interior Sindh, Pakistan been reimbursed (£45 each) on quarterly basis to continue their education (modern | Islamic) under the New Muslim Sponsorship project.

The faith-based project had delivered vital cash/faith-based assistance to the sponsored New Muslim children and their disadvantaged families.

**Jamia Imdad-ul-Uloom**

**Holy Qur'an Distribution  
Pakistan**

Jamia Imdad-ul-Uloom, is preserving and propagating the words of Allah (S.W.T) since 1987. The Madrassah has benefited thousands of students to guide other Muslims towards a faithful and a life as per the Sunnah of Prophet Muhammad (S.W.A). "Thanks to the efforts of Ummah Welfare Trust (Pak) as our students now will have their own copies of the Holy Quran which will allow them to easily learn their daily lessons," says Qari Shehroz.

**Niaz Parwar**

**Ummah Center for the Disabled, Rawalpindi,  
Pakistan**

Niaz Parwar, a five-year-old, deaf and dumb child studying at Ummah Centre for the disabled, Rawalpindi was also among those children who miss out on education. "With minimum financial resources I was not able to educate my normal children so to educate Niaz Parwar was just a faint thought," says her father Musarat Shah. "To ensure the rights and dignity of children with disabilities are protected, UWT (Pak) reaffirms its commitment in form of Ummah Centre for the Disabled where the enrolled children with disabilities enjoy the protection they require to lead lives of dignity," says Saqiba Naseeb, In-charge at the Centre.
